Equipment Name: 1400°C Box-Type Electric Furnace

Furnace size	φ400*400*400 mm
highest temperature	γ1400γ
Temperature control accuracy	Better than or equal to ±1 γ
Sample platform	Equipped with electric rotation function, sample platform diameter γ360 mm
Temperature uniformity	Better than or equal to ±3γ (within the effective furnace volume)
cooling rate	Temperature drop rate adjustable from 0.1 to 5γ/min within the temperature range of 500γ-1200γ.
Temperature controller	The standard configuration includes a digital controller that can be programmed based on heating and cooling rates and time, and has... Automatic temperature control and time control functions; the digital control system can accurately set and display the temperature.
Protection function	It features an automatic heating stop function when the door is opened, an alarm system for abnormal temperature and equipment malfunction, and leakage prevention. Automatic power-off protection function
High temperature protection	The machine's outer surface temperature is <50γ at the highest operating temperature.
Process security system	Passwords can be set to protect process parameters.
